EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: This application is in condition for allowance except for the presence of claims 28-30 directed to a non-elected invention without traverse. Accordingly, **claims 28-30 have been cancelled.**

Reasons for Allowance

Claims 1-5, 7-27 allowed. The following is an examiner's statement of reasons for allowance: Prior art fails to suggest or disclose applicants' manufacturing methods for forming a thin channel MOSFET, which include the following structure of a localized oxide region: in the SOI; *on top of and in contact with the upper surface of a buried insulating surface*; self aligned with the channel via; not extending entirely across the buried insulative surface, along with all other limitations as presented.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
